HACKATHON

CONTENTS

01 Definition

02 Submissions

**03** Prizes

04 Interest Form

01 WHAT IS A HACKATHON?

A hackathon is a coding competition!

1. Participants are given a prompt (for example, healthcare) and choose a specific problem to solve
   a. For this hackathon, there will be no specific prompt! You can build anything that solves a problem statement
2. Participants develop a solution (mobile app, website) using technology like JS, Python, etc
3. Participants record a video explaining the project
4. Judges choose the best projects based on **quality of idea, quality of code, code completion, and video presentation**

The winning teams get prizes!
